Early-career IT support professional with current part-time experience at **Fairmont Bangkok Sukhumvit**. Hands-on exposure to hotel IT operations, end-user support, workstation deployment, guest Wi-Fi assistance, and basic network checks. Business Information Systems graduate with software development and technical documentation experience, ready to contribute as a full-time IT Officer.

TECHNICAL SKILLS

- Hotel IT operations support
- Windows 10/11 development
- Hardware and software troubleshooting
- Workstation and peripheral setup
- Guest Wi-Fi assistance
- TCP/IP, network ports & VLAN
- End-user service & issue coordination
- PHP, MySQL, HTML, CSS, JavaScript
- Git/GitHub, VS Code, macOS

EDUCATION

BIS, Business Information Systems
Rajamangala University of Technology Lanna 2022 – 2026

LANGUAGES

Thai - Native
English - Working Proficiency

VALUE FOR THE IT OFFICER ROLE

- Already familiar with Fairmont Bangkok Sukhumvit's working environment and hotel service expectations.
- Combines hands-on user support with a software and database foundation.
- Comfortable coordinating across departments and learning under senior IT team guidance.
- Available to transition from part-time support into a full-time operational IT role

PROFESSIONAL EXPERIENCE

Sep 2026 - Present

IT Support (Casual) | **Fairmont Bangkok Sukhumvit**

- Provide daily IT support for back-office colleagues, resolving computer, software, printer and peripheral issues.
- Perform guest-room technology checks and assist with guest Wi-Fi connectivity issues to support smooth hotel operations.
- Install and configure Windows computers in line with Accor standards and prepare workstations for users.
- Support basic network-port and VLAN checks under IT team guidance and escalate issues when required.
- Coordinate with the IT team and hotel departments to track and resolve service requests promptly.

Aug 2026

Parcel Sorting Associate (Part-time) | **Shopee LM Hub HBGNA-A**

- Received, sorted, scanned and dispatched parcels to rider routes while maintaining handing accuracy and workflow discipline.

Nov 2025 - Mar 2026

Software Developer (Intern) | **RMUTL Software Systems Development**

- Supported e-Asset and e-Thesis projects through system analysis, user guidance and technical documentation.
- Assisted with database workflows, requirements coordination, user manuals and issue follow-up.

SELECTED PROJECT

Dec 2024 - Sep 2025

JR Car Rental Web Application Project

- Developed a rental-management web application using PHP, MySQL and Boostrap.
- Implemented booking workflows, payment, role-based access and dashboards.
